

# Protect our planet, preserve the future

## PLANT A TREE TO SAVE LIFE

A Green Mission by- The Education Committee of The Maheshwari Samaj (Society), Jaipur

VISION & MISSION of ECMS of Making India Clean and Green

**Dear Parents**

**Namaskar**

The impact of global warming is being felt everywhere and the climate change is the biggest problem of the World. **It is believed by the visionaries of the ECMS who are committed to its incredible journey and commitment for 98 years in the field of education, has moved towards environmental protection** which is not too big a problem for us to tackle, if we start now!

***We at ECMS exhort that by making changes in our daily habits and planting trees Global Warming can be reduced to a great extent.***

***The “Go Green Campaign” , initiated by The Education Committee of the Maheshwari Samaj (Society), Jaipur in the year 2023 will prove to be contributory to the nation’s great step towards “Planting a tree in the name of Mother” (एक पेड़ माँ के नाम), for saving and serving our planet.***

***We are back again with our utmost to The Planet i.e. the Plantation Drive, because, only by planting trees, we will be able to overcome Global Warming.***

***We are overwhelmed to inform that Ms. Saumya Gurjar, the Mayor of Jaipur, Nagar Nigam (Greater), has consented to be the part of this noble cause and her cooperation will play an incomparable role in plantation drive.***

As the children are the ambassadors of the nation and in order to develop responsibility towards the planet Earth and sensitise them for the protection of ecology, this unique venture of environmental conservation will commence from **29<sup>th</sup> July, 2024** in all **the institutions run under the aegis of ECMS**, and will continue till **15 August, 2024**.

Under this programme, each student will be given a fruit bearing, shady or medicinal sapling with a vision that they, as the responsible citizens of the Earth, would plant and nurture it till it is grown into a big tree.

**To make this approach a successful one we have connected it with our curriculum.**

Overall **three assessments** will be held in session 2024- 2025 to monitor the growth of the plant. The students will be awarded **5 marks** for the same. It is mandatory for the student to upload the picture of the plant and its timely growth on the ECMS Parent App, as per the dates mentioned below-

**Assessment 1 – by September 30<sup>th</sup> 2024 (sapling plantation)**

**Assessment 2 – by November 30<sup>th</sup> 2024**

**Assessment 3 – by January 30<sup>th</sup> 2025.**

Various activities will be conducted in schools during the course of this event to sensitise students about the necessity of trees and importance of plantation through enactments, poems, songs, slogan writing, poster making and other enriching activities.

We look forward to your co-operation to accomplish this magnanimous task by providing him/ her your precious time and assistance.

**Please don't forget, if you want oxygen for free, plant a tree now!**

LEGACY OF ECMS
